Mystique our majesty
Goddess unwind
Mystique of mind reveal
Mystique of mind

Mystique our majesty
Goddess unwind
Mystique my reveal

Match the eyes of the dragon
Catch the flames of breath
Hypnotize reality
And join in with the rest

Chase the hunted magic
And pray to its commands
You think you winning
Flight control to OD land

Bite the heart of the arrow
Forget the purpose life
Breaking in vein
Injecting the knife

Eagle eyes the challenge
Regurgitating feast
Yourself alive in mind
And shell joins the deceased

You can take all
Reach your hand right out and sin
Don't mistake it

Mystique our majesty
Goddess unwind
Mystique of mind reveal

Kick the womb of the serpent
Announce the arctic foul
No mans dog but when he's gone
You feel him growl

Heat the the bowl of the chalice
Release the virgins soul
Every scent of innocence
Forever growing old

Who awaits all
Crawls through the pores of your skin
Don't debate it

Mystique
Mystique
Mystique
Mystique

Mystique to those unknown
While all the mists arise
Death deals in danger
Take a look at your surprise

Mystique our majesty
Collected in my mind
Hell bent for mystery
Goddess reveal unwind
