In a dream or a nightmare, where love gives way to  
hate  
The quest begins for the keys to the seven gates  
Ride the wings of the locust, see the wizard cast his  
spell  
Search for the keys to the seven gates of hell

On heaven's earth where all evil dwells, and man and  
beast are one  
Concealed to all, revealed to none lie hell's infernal  
gates  
Those damned infernal gates

The seven gates of hell!!!

Hear the cry of the zombie, rid the body of it's soul  
The quest for the seven keys have become their goal  
Steal the wings of the hydra, and the sword from the  
sacred shrine  
Take the strength of the beast and the sinner's mind

Unveiled in death to the sinner  
Written in the ancient book of lies  
Hear the demons call from the crimson waterfall  
As the blood rained from the skies

When reality's a dream and every lie is true  
In the day when you are me and the night when I am  
you

When the flame of life grows cold, I'll chime the silent  
bell  
When the unborn child is old  
The seven gates of hell!!!!!!

We're going through the gates of hell

In heaven's hell so many died in vain  
They never got their taste of death  
Night shall find the key to set their spirits free  
From the seven gates of hell

The seven gates  
The seven gates  
The seven gates  
The seven gates of hell!!!!
