Hello there, Sweet Baby. Tell me what is your name.  
But it don't really matter, I'll love you just the same.

I'm gonna love you baby  
But don't you ever ask me  
How? How? How?

Well, don't cry baby  
cause you're my baby now.

I saw you at the dance last night. You was standing by  
yourself.  
By the look in your eyes, I saw you didn't have noone  
else.

I'm gonna love you baby  
But don't you ever ask me  
How? How? How?

Well, don't cry baby  
cause you're my baby now.

I want to pick you up and show you all around the town  
I've told all my friends that you're the hottest girl  
around.
