"Synchronicity I"

With one breath, with one flow
You will know synchronicity
A sleep trance, a dream dance
A shared romance, synchronicity

A connecting principle linked to the invisible
Almost imperceptible, something inexpressible
Science insusceptible, logic so inflexible
Causally connectible, yet nothing is invincible

If we share this nightmare
Then we can dream, spiritus mundi
If you act as you think
The missing link, synchronicity

A connecting principle linked to the invisible
Almost imperceptible, something inexpressible
Science insusceptible, logic so inflexible
Causally connectible, nothing is invincible

We know you, they know me
Extrasensory, synchronicity
A star fall, a phone call
It joins all, synchronicity

A connecting principle linked to the invisible
Almost imperceptible, something inexpressible
Science insusceptible, logic so inflexible
Causally connectible, nothing is invincible

It's so deep, it's so wide
You're inside, synchronicity
Effect without a cause
Sub-atomic laws, scientific pause
Synchronicity, synchronicity, synchronicity....
