[Chorus - Singin' D - 2X]

There's a serpent in my soul  
Before the venom takes its hold  
We hafee, whoa  
We hafee Murda dem, murda dem  
To feel the purification

[Dirt Gritie]

When the physicals appeased the mind is at ease  
At easy flowing like a tree in the breeze  
Late nights in the park with my peeps sharing dreams  
Pennies in the wishing well or so it seems  
We wolves howling at the moon  
Trying to make something out of nothing just like the  
maroons  
From ox tail chicken foot soup to curry goat stew  
Scraps, made into gourmet food  
These are the things I would eat as a youth  
Not understanding what granny went through  
Now we first generation Canadian true  
And we ain't got a worry bout water or food  
Given every opportunity to plant our roots  
So we might as well build that's what we gone do  
Nine-six born equal  
Out of many one people

[Chorus - Singin' D - 2X]

There's a serpent in my soul  
Before the venom takes its hold  
We hafee, whoa  
We hafee Murda dem, murda dem  
To feel the purification

[Young Mav]

Weapons of deception, plans of deceit  
Only way to brake'm, make'm not eat  
Youth'll rebel, guns ain't for sale  
There yours for free, just shoot your own team  
Youth'll use'm, Governments produce them  
Then they wait for fate, to provide solutions  
Destabilize, news'll feed lies

Over throw a man try'na make things right  
Many migrate with hopes to be free  
But wind up slaves to the GDP  
When we lose our solidarity vision  
We adhere a rat race, embrace corrupt systems  
Join when we lose only thing we gain  
Is the grief of prophets, who died in vain  
Appease the displeased, protests decrease  
But black politicians don't mean we're free

[Chorus - Singin' D - 2X]

There's a serpent in my soul  
Before the venom takes its hold  
We hafee, whoa  
We hafee Murda dem, murda dem  
To feel the purification
