"Until I Die"

Visit "[Until I Die](#)" on MotoLyrics.com

Yeah this one's for you pretty mama this ones for you girl

(chorus)

Until I die until I'm gone until I can't see light no more
I'll be your queen your everything
cause you've been so good to me
Until I die until I'm gone until my last words have been told
Until I die until I pass cause our love was meant to last

I remember when I met you couldn't get you off my mind
even when I closed my eyes all I could think was you gotta be mine
there no replacement for your smile and pretty eyes
the way you never cursed at me even when I made you cry
we've come a long way since that very 1st day
skipping class to be together in the hallway
you made me feel like I got a reason to live
my pride possession my medallion my best friend
through the drama pain funerals and family fights
not for one second did you ever leave my side
thats why I love you girl te quiero de verdad
and if I loose you girl hasta la muerte voy a llorar

(chorus)

Until I die until I'm gone until I can't see light no more
I'll be your queen your everything
cause you've been so good to me
Until I die until I'm gone until my last words have been told
until I die until I pass cause our love was meant to last

Before my eyes blow and my soul goes home these were words
that I never told you you were everything to me
my last hope my last dream and on my last breath I would tell you this
you were my sunrise and my sunset my best friend who

I would've
shared my last dollar with you were the last of my fate
in these last days
and please let it be you that kiss away these last tears
to ***fall***
from my face until my last hours I'm yours my last hug
my last kiss
the last smile on my lips but my last regret was this
that I never even got a chance to tell you this

(chorus)

Until I die until I'm gone until I can't see light no more
I'll be your queen your everything
cause you've been so good to me
Until I die until I'm gone until my last words have been
told
Until I die until I pass cause our love was meant to last

In the blink of an eye I'ma meet my Demise and live
only as a memory
deep in the mind but until that day comes when I
breathe no more
just know who I live life for I used to walk in the
darkness
with no real purpose in life never blinded just never
really cared
about life I used to say once your born you just waitin'
to die
and every day in between is just a waste of some time
but in time I was convinced that I was far from the truth
beleive it or not I found truth the night I met you so just
know
that if there's a life after death **Imma** wait for you
ther to love you forever
(for real)

(chorus)

Until I die until I'm gone until I can't see light no more
I'll be your queen your everything
cause you've been so good to me
Until I die until I'm gone until my last words have been
told
Until I die until I pass cause our love was meant to last
