Watch out she's going down the steps
It's 9 o'clock and the party hasn't even started yet
4 - 5 - 6 Cee Lo!
In the morning wake up and wonder, "where'd my
money go?"

What's next? Who knows!
It happens everywhere we go
We find trouble everyday
All day, all night
It's how we live our lives
It's in the songs we play

Another 18 hour drive
The Dote has a barrel, Huib's got a Whopper and Jackie
brought wine
5000 miles from home
Then it's back in the van and on the road and say,
"goodnight goat!"

What's next? Who knows!
It happens everywhere we go
We find trouble everyday
All day, all night
It's how we live our lives
It's in the songs we play
